

Winter 2019 - "Isolablue" Laurent + Astrid, Too many thank-yous to list. Your unending hospitality was so appreciated. To go on a vacation and truly relax and be taken care of is a dream. To have that happen in the hands of such accomplished people - a pure treat. Getting to know you as friends and having the opportunity to experience a bit of your current life - pure joy. You both welcomed us into your home as strangers, but ended as friends.

We will figure out a way to take another trip under your care again. The experience was delightful, the food superior, the governing of the boat so ~~smooth~~, competently organized. All the pieces created a very memorable vacation - one we will talk about for years. Thank you both. I truly hope our paths cross again.

Happy sailing!  Lynn (Jan 13 19)

Astrid + Laurent,

This past week has been one of the best and most memorable weeks of my life. I would not change a single thing about our trip ~~so much~~ (besides extending it); I feel like every moment was perfection, largely due to your amazing hospitality. From almost the first moment I walked on the Isolablue, I felt completely comfortable to be totally myself. From playing games to telling weird cat stories, like we had already known you for years.

Thank you, Laurent, for certifying me as an advanced diver. You were an amazing teacher; guide, and I truly think the night dive was one of my top 3 favorite moments of my life. Also, your boating skills were ~~amazing~~; put us all at ease during our voyages.

Astrid, your cooking - wow. Every meal was mind-blowing. You're absolutely a culinary genius; I'm afraid all my meals will seem boring after your feasts. Also, thank you for being my 2nd mom during the trip. ☺. ↗

Thank you both for such an amazing week. We're not just customers + crew, or even just friends, I feel now we are family.

We will all miss you dearly. HAPPY SAILING! 
love,

LUCY

Astrid & Laurent,

I can not thank you enough for making our vacation with you so much fun my family and I. It didn't take but a short time with you to know this was going to be a special trip. Your boat was very comfortable, you had all the water toys and a great itinerary. But from my perspective the critical element was you. You started as captain and crew and ended up as friends.

The fact that Astrid was a a world class chef was icing on the cake. We'll talk about her masterpieces.

Thanks again. I sincerely hope that we keep a touch and that our paths cross frequently.

Todd

Jan 14, 2019

Dear Laurent + Astrid,

I would write this in French but I don't know if I can express it well enough.

I am still swaying with the waves. :)

Thank you so much for the fantastic voyage on the sea!! There were so many moments and experiences that we had together that were so memorable in such a very short time! For me, this trip was an actual gift from God. I believe He has blessed your lives and that He blessed others through you. Your hard work + generous care did not go unnoticed. There were things done and said that were from your hearts that have touched me and changed me in special ways - a sweet "undercurrent" that is without words. I am not exaggerating nor do I want to "put you up on a pedestal." None of us are perfect but what gifts you have, you have shared that with us; your hospitality, your fun, and most of all for me, your genuine kindness. Thank you. Merci pour tout et que Dieu vous bénisse. Please come visit us in California! Votre amie, Cathy
